

Bradford and Glasgow Sept 09

The MDC annual conferences were held in Bradford and Glasgow this year, for the first time our group had a presence at both events.

Our stand attracted quite a bit of interest, people were very impressed with our new logo, banner and display boards.

Lots of membership cards were given out and we met many potential members who were pleased to find a group that supported people with fsh-md.

We were also pleased to introduce our latest member "FiSHer Bear" who was very active in encouraging people to approach our display. We hope that he will become a focus for children, and parents of children with fsh-md. We are planning to do more work in this area and to be able to offer the specialized support and information needed when children are affected with fsh-md.

I'm very grateful to our members who gave up their time to man our stands; many miles were covered in the two consecutive weekends that the conferences were held, but it was great to meet up with so many of you and to put faces to names, everyone was so very positive and welcoming. Thank you to everyone who came over to say hello.
